

EnviroIndia

Co-located with

12 - 14 February 2020 | Palace Grounds, Bengaluru

Increasing industrial activity and urbanisation, while driving economic growth and prosperity have also led to the need for Environment Protection and Pollution Control, especially in the industrial arena. Organisations are aware that formulating and implementing a sound policy for Environment Protection and Pollution Control will not only help the company meet statutory requirements, but also add to the bottom line, as well as improve the quality of air, water, and land in their vicinity, and thus contribute to the society's climate change initiatives. Hence organizations are proactively adopting strategies, technologies, and best practices for Environment Protection and Pollution Control as a major ongoing goal for its businesses.

EnviroIndia will provide Environment, Health & Safety professionals of industrial units and business organisations with expert advice, training, and access to the latest equipment, products, technologies, solutions and services the industry has to offer.

EnviroIndia is the ideal opportunity for Suppliers & Service Providers to exhibit their solutions for Environment Protection and Pollution Control, and generate new leads and business !

Municipalika, India's leading show on Smart and Sustainable Cities, has always had a strong focus on the areas of Solid Waste Management, Water, Waste-Water and Sanitation, and Energy Efficiency. EnviroIndia has exclusive segment focussed on Clean Air, Water and Land, fitting in well with the overall theme and thrust of Municipalika.
