WHAT THEY SAID...

Over the years, Municipalika has promoted and enhanced the approaches undertaken by the government as it continues India's urban rejuvenation. I am confident that this year's conference and exhibition will also inspire a lot of good ideas and solutions that will be beneficial to the urban space.

- Hardeep S Puri, Minister of Housing and Urban Affairs; and Petroleum and Natural Gas, Government of India

The benefits of our bilateral ties & the AI-ECTA are prominent in supporting Australia-India infrastructure collaboration. We are pleased to see the Australian Infrastructure industry strongly represented at Municipalika 2023.

- Catherine Gallagher, Minister Commercial, Australian High Commission and Head of the Australian Trade & Investment Commission (Austrade) - South Asia

We are happy to have extended our support to Municipalika for the past few years. I hope Municipalika 2018 will garner wider participation from all the urban stakeholders from across the country who will get a lot of solutions to urban and housing challenges.

- Durga Shankar Mishra, Former Secretary, Ministry of Housing and Urban Affairs, Government of India

As the apex industry body for promoting the interests of national development and all stakeholders in the city development, NAREDCO is

happy to lend its full participation and support to Municipalika.

- Dr. Niranjana Hiranandani, President, NAREDCO

Great experience! This platform is very useful for us to showcase our products to the government directly. Congratulations to the organisers for

such a great show! Thank you for letting us be a part of the progress you are working towards for this country.

- A. L. Narasimhan, VP - Strategic Business Alliances, Prama India

It's important for us to be in front of municipalities and smart cities, for them to understand the latest tech trends, and how important digitalisation is in

today's infrastructure.

- Sabyasachi Bhattacharya, Global Product Line Manager, ABB India Ltd.

It is a wonderful conference and it is fascinating to see so many people together. This is an important platform to share our ideas. We are all builders

of our cities in our own way and through our day-to-day actions.

- Kunal Kumar, National Mission Director, National Smart Cities Mission

Such exhibitions help us to share information about our upcoming products with the main stakeholders in the industry. It is an opportunity to

showcase the new and sustainable technologies that we use, which the visitors here have shown great interest in.

- P M Hiremath, Regional Manager - South, WT & RMD, Ultratech Cement

A lot of dynamic things going on here! Our products are sold to the municipalities of all over India - so, this show definitely helps us to understand

the expectations of the southern market and work towards it.

- Folkert De Jong, President - Asia, Keith Walking Floor India Pvt. Ltd.

INDIA'S URBAN TRANSFORMATION: A LANDSCAPE OF OPPORTUNITY

Municipalika 2026 – The Definitive Platform for Urban Innovation & Partnerships

India is undergoing an unparalleled phase of urban transformation. With over 500 million people living in urban areas—and projections placing that figure above 600 million by 2031—the country is building the foundations for a modern urban future. This rapid shift is opening massive opportunities for infrastructure providers, solution developers, technology innovators, and consultants. From megacities to smaller urban clusters, India is investing heavily in smarter, safer, and more sustainable cities.

Driven by landmark programs like the Smart Cities Mission, AMRUT 2.0, Swachh Bharat Mission, Housing for All, and Digital India, municipalities across the country are actively seeking cutting-edge solutions to enhance mobility, public services, waste and water management, housing, and digital governance. Cities like Pune, Surat, Indore, Bhubaneswar, and Kochi are emerging as models of how innovation and policy can transform urban living. At the same time, the demand for scalable, cost-effective, and climate-resilient solutions continues to grow across hundreds of Tier-2 and Tier-3 cities, making India a thriving marketplace for public-private collaboration in urban development.

New Delhi: Urban Innovation in Action

As India's capital, New Delhi reflects the intersection of policy vision and practical implementation. It is advancing in areas such as integrated mobility, green energy, real-time service delivery, and urban heritage renewal. Initiatives like the redevelopment of Connaught Place and Chandni Chowk, the Central Vista project, and the expansion of electric mobility and surveillance networks show how Delhi is positioning itself as a leader in future-ready

urbanism. With proximity to central ministries, urban think tanks, and decision-makers, Delhi is the ideal venue for stakeholders looking to engage with India's urban growth story.

Bharat Mandapam: A Symbol of Modern Indian Urbanism

The venue for Municipalika 2026—Bharat Mandapam, Pragati Maidan—is itself a testament to India's urban aspirations. This state-of-the-art convention centre blends global standards with Indian design sensibilities, sustainable architecture, and multimodal accessibility. As the site of key global summits like the G20, Bharat Mandapam exemplifies the kind of urban infrastructure India is now delivering—smart, scalable, and iconic.

Municipalika 2026: Powering Viksit Bharat @2047

Municipalika 2026 serves as the national platform where city leaders, engineers, architects, urban planners, policymakers, technology providers, and infrastructure firms come together to shape the next chapter of India's urban journey. As India accelerates toward its Viksit Bharat @2047 vision, urban development is not just a necessity—it is the engine of future economic growth, environmental sustainability, and social inclusion.

By participating in Municipalika 2026, exhibitors align themselves with India's most dynamic sectoral mission—delivering urban excellence at scale. This is the moment to connect, contribute, and co-create the cities of tomorrow.

THE SHOW

- With the rapid pace of urbanisation, Indian cities and urban areas are experiencing massive expansion and growth, throwing up huge challenges and business opportunities. In most cases, the city level infrastructure is bursting at the seams. The Government of India programmes like Swachh Bharat Mission 2.0 - Sanitation for all, Housing for All under PMAY (Pradhan Mantri Awas Yojana), Smart Cities Mission 2.0, 500 Cities and beyond under AMRUT 2.0 (Atal Mission for Rejuvenation and Urban Transformation) and HRIDAY (Heritage City Development and Augmentation Yojana) for Heritage Cities are driving central and state governments, urban local bodies and private industry by creating the right environment and enabling them for building smart, safe and sustainable cities.
- The years of pandemic have brought to light new and unique challenges for cities: the increase in digitalisation and automation of services, the need for contactless experiences, safety of water and recycling, etc. How to make cities safe and resilient for a better tomorrow?
- For the last 20 years, Municipalika, International Conference and Exhibition on Making Cities Work has been instrumental in highlighting pertinent issues revolving around these challenges and opportunities, sharing best and leading practices, showcasing technological and managerial solutions and providing inputs for policy interventions.
- It will have the participation of Countries, States, Municipal Corporations and Parastatal boards displaying the initiatives they have undertaken for their cities, along with 500+ technology solution providers for city development needs, exhibiting their technologies and displays.
- More than 2,000 delegates and 10,000 visitors are expected to participate in the unique mega show for building better cities.

WHO EXHIBITS AT MUNICIPALIKA

Solution providers of :

Water & Wastewater

Water treatment, Desalination, Sewage Treatment, Recycling and Reuse

Sanitation, Solid Waste Management & Recycling

Sanitation for all, ODF Cities, Municipal, Industrial Hazardous, Bio-Medical, Construction & Demolition and E-waste/ Recycling and Waste to Energy

Urban Infrastructure Development

City Infrastructure for Roads, MRT, BRT, LRT, Transportation, Airports, Electricity and Lighting, Power, Telecom, Energy, Technology and Financing options

Urban Housing

Housing for All, Slum-free Cities including technology and financing options

Smart and Digital Cities

Smart Cities, Geospatial/GPS Solutions, E-Governance, ICT Applications

Public Works

Road & bridge construction, Asphalt, concrete, and paving materials, Heavy machinery and equipment, Public building construction and maintenance, Parks and recreation infrastructure, Civil engineering and design firms, Utility contractors

Urban Transportation & Traffic

Mass Rapid and Multimodal options, Traffic Management and Parking Solutions, Intelligent Transport Systems, Smart Cards and Payment Technologies, Hyperloop, Personal Rapid Transit

Electric Mobility

Electric, Hybrid, Alternative Fuel Vehicles, Autonomous Vehicles, Storage/Batteries, Charging Infrastructure

Green Cities

Sustainable Infrastructure Development, Green Built Environment and Renewable Energy

Environment & Pollution Control

Pollution Control Technologies and Clean Air, Land and Water Technologies

Safety & Security

Fire Safety, Prevention, Protection and Rescue, Security Installation with Audio and Video Surveillance, Disaster Mitigation

Exhibitors of Innovative Building Materials & Technologies

Cement and Concrete ■ Steel and Iron ■
Fenestration, Doors, Windows, Systems ■ Glass
and Glazing ■ Tiles, Sanitary Ware and Bathroom
Products ■ Stones, Marbles and Granites ■
Paints and Coatings ■ Elevators, Escalators and
Moving Walks ■ Heating, Ventilation, and Air
Conditioning (HVAC) ■ Fire Protection, Security

ARCHITECTURE IN THE AGE OF MILLENNIALS

Architecture in the Age of Millennials is a unique conference programme that addresses the changing landscape of architecture, the challenges and the scope of innovation it has to offer. It welcomes thought leaders to discuss sustainable urbanism and all aspects of architecture and building materials for the Millennial generation through exhibition displays and conference sessions on Sustainable Built Environment.

WHO VISITS

Central, State, City and Regional Authorities ■ Central Ground Water Authority/Municipal Water Authorities ■ Fire Protection and Security Professionals and Specialists ■ Mayors/Commissioners/CEOs ■ Town Planners, Architects, Engineers and MEPF Experts ■ Waste Management Professionals, Companies, Experts, Consultants ■ Green Building and Built Environment Consultants ■ HVAC Engineers and Contractors ■ Health Services Professionals ■ Real Estate Developers and Housing Experts ■ Plumbing and Sanitation Engineers and Contractors ■ Institutional and Private Investors, Buyers and FIs and HFCs ■ Smart Cities/AMRUT Cities ■ Public Works and Public Health Engineering Department ■ Traffic, Road Department and Consultants ■ MRT, LRT, Urban Mobility Change Agents and Parking Professionals ■ Service Providers ■ Urban Designers ■ Water and Waste Water Consultants and Experts ■ Waste Management and Waste to Energy Experts ■ Landscape Architects and Consultants ■ Consultants to Municipal Corporations ■ GIS, GPS and ICT Professionals, E Governance Experts ■ Builders, Developers and Construction Entities ■ Power and Renewable Energy Companies and Experts ■ End Users and Occupiers

PARTICIPATION PACKAGE

EXHIBITION

Standard Rate*	In-line (1-side open)*	Corner (2-sides open)*	Peninsula (3-sides open)*	Island (4-sides open)*
INDOOR Built-up Booth (min 9 sqm)	₹ 22,500* / US\$ 350	₹ 24,500* / US\$ 370	₹ 26,500* / US\$ 400	₹ 28,500* / US\$ 430
