Municipalika + CAPEX + PWX: India's only 360-degree Urban Development Platform

Municipalika is India's only 360-degree platform dedicated to urban innovation, infrastructure, governance, housing, mobility, sanitation, energy, and public services. Returning in its 18th edition, **Municipalika 2026: Powering Viksit Bharat @2047** will serve as the most comprehensive forum for advancing India's urban future.

To deliver holistic solutions, Municipalika is co-located with:

CAPEX: India's leading platform for advanced construction technologies, building materials, architecture, and engineering solutions.

PWX: India's exclusive platform for innovations in public works and civic infrastructure.

Together, these three shows form a **converged ecosystem**, addressing every layer of India's built environment: from housing and urban infrastructure to municipal engineering, civic services & public works.

Institutional Strength & Partnerships

This combined platform is organised by **Fairfest Media and Good Governance India Foundation**, & co-organised by the **India Trade Promotion Organisation (ITPO)**.

ITPO, under the Ministry of Commerce & Industry, Government of India, is the country's premier trade promotion body. Established in 1992, it manages Bharat Mandapam, New Delhi's landmark international exhibition and convention centre. With regional offices and joint ventures across India, ITPO drives global trade promotion, business networking, and international collaborations, while championing sustainability and CSR.

This partnership brings unmatched networks, credibility, and institutional strength, ensuring Municipalika, CAPEX, and PWX 2026 become India's definitive stage for global collaborations in urban development.

The Venue: Bharat Mandapam

Bharat Mandapam, the venue for Municipalika 2026, is a symbol of modern Indian urbanism. This world-class convention centre combines global standards with Indian design, sustainable architecture, and multimodal connectivity. Having hosted global events like the G20, it reflects India's smart, scalable, and iconic urban vision, making it the perfect destination for Municipalika 2026.

New Delhi: Urban Innovation in Action

Hosting Municipalika 2026 in **New Delhi** adds unique significance. The capital exemplifies the blend of policy vision and on-ground transformation; from the Central Vista Redevelopment and Chandni Chowk renewal to rapid e-mobility expansion. With its proximity to central ministries, think tanks, and urban leaders, New Delhi provides unparalleled access to decision-makers shaping India's urban transformation.

Water & Wastewater

Sanitation, Solid Waste Management & Recycling

Urban Infrastructure Development

Urban Housing

Smart and Digital Cities

Urban Transportation & Traffic

Electric Mobility

Green Cities

Environment & Pollution Control

Safety & Security

Public Works

What They Said...

Over the years, Municipalika has promoted and enhanced the approaches undertaken by the government as it continues India's urban rejuvenation. I am confident that this year's conference and exhibition will also inspire a lot of good ideas and solutions that will be beneficial to the urban space.

- Hardeep S Puri, Minister of Housing and Urban Affairs; and Petroleum and Natural Gas, Government of India

The benefits of our bilateral ties & the AI-ECTA are prominent in supporting Australia-India infrastructure collaboration. We are pleased to see the Australian Infrastructure industry strongly represented at Municipalika 2023.

- Catherine Gallagher, Minister Commercial, Australian High Commission and Head of the Australian Trade & Investment Commission (Austrade) - South Asia

What They Said...

Great experience! This platform is very useful for us to showcase our products to the government directly. Congratulations to the organisers for such a great show! Thank you for letting us be a part of the progress you are working towards for this country.

- A. L. Narasimhan, VP - Strategic Business Alliances, Prama India

Such exhibitions help us to share information about our upcoming products with the main stakeholders in the industry. It is an opportunity to showcase the new and sustainable technologies that we use, which the visitors here have shown great interest in.

- P M Hiremath, Regional Manager - South, WT & RMD, Ultratech Cement

It's important for us to be in front of municipalities and smart cities, for them to understand the latest tech trends, and how important digitalisation is in today's infrastructure.

- Sabyasachi Bhattacharya, Global Product Line Manager, ABB India Ltd.

A lot of dynamic things going on here! Our products are sold to the municipalities of all over India - so, this show definitely helps us to understand the expectations of the southern market and work towards it.

- Folkert De Jong, President - Asia, Keith Walking Floor India Pvt. Ltd.

What They Said...

We are happy to have extended our support to Municipalika for the past few years. I hope Municipalika 2018 will garner wider participation from all the urban stakeholders from across the country who will get a lot of solutions to urban and housing challenges.

- Durga Shankar Mishra, Former Secretary, Ministry of Housing and Urban Affairs, Government of India

As the apex industry body for promoting the interests of national development and all stakeholders in the city development, NAREDCO is happy to lend its full participation and support to Municipalika.

- Dr. Niranjan Hiranandani, President, NAREDCO

It is a wonderful conference and it is fascinating to see so many people together. This is an important platform to share our ideas. We are all builders of our cities in our own way and through our day-to-day actions.

- Kunal Kumar, National Mission Director, National Smart Cities Mission
