MANOHAR LAL

MESSAGE

आवासन और शहरी कार्य मंत्री एवं
विद्युत मंत्री
भारत सरकार
**Minister of
Housing and Urban Affairs; and
Minister of Power
Government of India**

India is witnessing a transformative phase of urban development driven by rapid urbanisation, technological progress, and a strong focus on sustainability and inclusive growth. National initiatives have accelerated improvements in infrastructure, basic services, and quality of life in cities.

The Union Budget 2026 further strengthens this momentum with enhanced support for urban infrastructure, Urban Local Bodies, sustainable mobility, water and sanitation systems, affordable housing, and climate-resilient planning under the Ministry of Housing and Urban Affairs.

Municipalika + CAPEX + PWX 2026 the international conference scheduled for 25–27 February 2026 at Bharat Mandapam, New Delhi, is an important platform that convenes policymakers, urban local bodies, public agencies, industry, and global stakeholders for focused dialogue on urban governance, infrastructure development, sustainability, and smart city solutions in line with the Hon'ble Prime Minister's vision of Viksit Bharat by 2047.

I extend my best wishes for the successful conduct of the conference and look forward to the outcomes of the deliberations and the new ideas that will emerge from it.

Manohar Lal

Sankalp Bhawan, New Delhi-110001

MESSAGE

India's urban transition today is not merely about expanding infrastructure, but about improving the quality, efficiency, resilience, and sustainability of service delivery. As cities confront increasing pressures related to water security, waste management, mobility, housing demand, climate adaptation, and fiscal sustainability, the emphasis must shift from isolated projects to integrated, outcome-based urban systems.

Flagship initiatives such as the **Atal Mission for Rejuvenation and Urban Transformation 2.0**, **Swachh Bharat Mission 2.0**, and **Pradhan Mantri Awas Yojana 2.0**, **CITIIS 2.0** have laid a strong foundation for institutional strengthening, digital governance, infrastructure modernisation, and citizen-centric urban reforms. The next phase requires deeper collaboration between governments, industry, technology providers, and financing institutions to scale innovations and improve execution efficiency.

The launch of Urban Challenge Fund and allocation of ₹1 lakh crore for a five year period from 2025-26 to 2030-31 marks a major step forward for India's urban infrastructure sector. This dedicated corpus will accelerate investments in core civic infrastructure, mobility, utilities, and climate-resilient systems, while strengthening municipal capacity and project execution.

The Fund is expected to catalyse additional investments of Rs. 3 lakh crores and fast-track high-impact projects, reinforcing our commitment to sustainable, resilient, and future-ready urban development in 4223 cities.

I am also glad that **CAPEX**, focusing on innovative building design, materials and construction technologies, and **PWX**, focusing on public works and infrastructure development are also planned with Municipalika to provide an integrated approach to safe, smart, sustainable and resilient cities development.

Platforms such as Municipalika provide an opportunity for evidence-based dialogue, sharing of best practices, demonstration of deployable technologies, and structured engagement between policy-makers and solution providers. Such interactions are essential to accelerate implementation, enhance capacity of Urban Local Bodies, and promote sustainable and resilient urban growth.

I encourage States, Urban Local Bodies, and sector stakeholders to actively engage with this platform and leverage it to strengthen implementation outcomes.

I extend my best wishes for the success of Municipalika 2026.

(Srinivas Katikithala)

Office Address : Room No. 919, 9th Floor, Sankalp Bhawan, Pandit Ravi Shankar Shukla Lane, K.G. Marg, New Delhi-110001

Tel. : 011-23783010, 23783011; E-mail : secyurban@nic.in; Website; www.mohua.gov.in

The show was Inaugurated in the presence of:

Mr. Manohar Lal

Hon'ble Minister for Housing & Urban Affairs and Power, Government of India

Ms. Anaclaudia Rossbach

United Nations Under-Secretary-General, Executive Director, UN-Habitat, Nairobi

Ms. D Thara, IAS

Additional Secretary, Ministry of Housing and Urban Affairs, Government of India

Ms. Renu Bala

Chairperson, All India Council of Mayors, Mayor, Karnal Municipal Corporation

Mr. V. Suresh

President, Good Governance India Foundation Former CMD, HUDCO

Mr. Manohar Lal

Hon'ble Union Minister for Housing & Urban Affairs and Power, Government of India

"Our alertness towards development is also proven by the fact that such a large number of people have come here from different corners of the country to participate in this event. This is an indication that we are becoming conscious and are moving forward in the direction of understanding development issues seriously. I wholeheartedly appreciate all of you for organizing this exhibition and conference together through Municipalika, CAPEX and PWX 2026."

Ms. Ana Claudia Rossbach

United Nations Under-Secretary-General Executive Director, UN-Habitat

"Municipalika allows us to exchange practices, build coalitions and work together to find solutions to the challenges cities are facing. India is key for us for the next ten years of the New Urban Agenda."

Ms. D. Thara, IAS

Additional Secretary, Ministry of Housing and Urban Affairs, Government of India

"Over the past decade, significant investments have been made in strengthening urban infrastructure, improving water supply coverage and expanding sewer networks across Indian cities. Platforms like Municipalika provide valuable opportunities for collaboration and knowledge exchange among urban stakeholders."

Mr. Ashish Sood

Hon'ble Minister for Urban Development, Home, Power, Education, Higher Education, Training & Technical Education, Government of NCT Delhi

"I congratulate the organizers of Municipalika and the Urban Innovation Challenge for creating a platform that encourages collaboration between government, industry, academia and young minds."

Ms. Renu Bala

Mayor, Karnal & Chairperson, All India Council of Mayors

"Through the exhibition and the discussions taking place at Municipalika, participants will take back new insights and a stronger vision for their respective cities. It is encouraging that policymakers, administrators and city leaders are gathered here with a shared objective to accelerate the development of our cities."

BHARAT MANDAPAM

A Landmark in Sustainability

Proudly Honored with **GRIHA 4-Star Rating** for Green Excellence

NBCC (India) Ltd. proudly celebrates the GRIHA 4-Star rating for Bharat Mandapam, recognizing it as a model of sustainable development. This state-of-the-art facility at Pragati Maidan reflects our unwavering commitment to eco-friendly innovation, seamlessly combining modern design with environmental responsibility to shape India's green future.

The award celebrates the project's excellence in adhering to 31 sustainability criteria, reducing energy consumption, promoting renewable energy, and fostering a greener urban landscape.

Sustainability Milestones at Bharat Mandapam

Energy Efficiency:

43.5% reduction in energy consumption through efficient air-conditioning, LED lighting, and star-rated equipments.

Water Conservation:

70% annual water savings with a 1.1 MLD STP and low-flow fixtures.

Smart Monitoring:

Advanced Building Management Systems (BMS) for efficient resource utilization.

Biodiversity Preservation:

Retention of 800+ mature trees and plantation of 5,000 native trees.

Waste Management:

On-site treatment of organic waste with an Organic Waste Converter (OWC).

Urban Greening:

Over 20,000 plants added to Delhi's landscape, enhancing air quality and aesthetics.

Renewable Energy:

25% reduction in grid dependency with 400 KWp solar PV installations.

BHARAT MANDAPAM

A Landmark in Sustainability

Proudly Honoured with Cleanest City In India

Municipal Corporation, Karnal, proudly celebrates achieving the 3rd Rank nationwide in the 'Swachh Shehar' (Clean City) category for cities with a population between 50,000 and 3 lakh at the Swachh Survekshan 2024-25 awards. This prestigious honour, presented by Hon'ble President Droupadi Murmu, marks a historic milestone as Karnal becomes the first city in Haryana to receive this presidential recognition. It reflects the city's unwavering commitment to exceptional sanitation, sustainable urban development, and the Swachh Bharat mission.

INNOVATION SHAPING THE FUTURE OF WASTEWATER

EUROTECK from equipment to ecosystem:
A process driven approach to wastewater treatment

The rapid growth of India's urban population is placing unprecedented pressure on our wastewater systems. Overloaded plants and variable sewage quality are the direct consequences of this expansion, creating a critical need for innovative solutions that can work within our limited land availability

With over **20+ years of excellence in wastewater engineering**, Euroteck Environmental Pvt. Ltd. works at the ground level of this challenge. The company designs and delivers wastewater treatment systems **engineered for Indian operating conditions**, not ideal assumptions. Rather than supplying isolated equipment, Euroteck focuses on **end-to-end, process-driven treatment solutions** that perform reliably day after day.

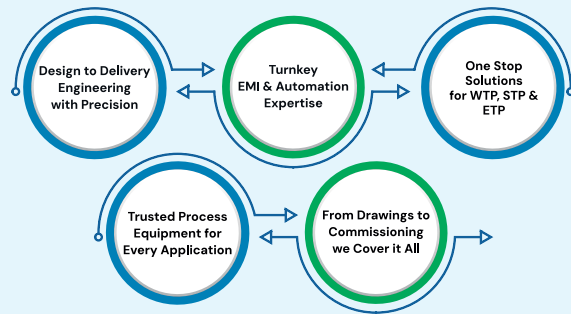

By integrating **biological treatment, tertiary filtration, & sludge handling** into a single, well-engineered system, Euroteck Environmental helps cities and industries achieve stable compliance, reduced operational stress, and long-term reliability. Every system is developed with real-world constraints in mind including space limitations, load variations, energy efficiency, and ease of operation.

Backed by two decades of practical experience, Euroteck supports **Municipalities in protecting water bodies, strengthening urban sanitation, and building** wastewater infrastructure that is resilient, scalable, and future-ready.

REVOLUTIONIZING THE MASS TRANSPORTATION

'Namma Metro' is the second single largest Metro Network in the country. It plays a pivotal role in city's growth significantly contributing to its economic development.

Highlights

- First Metro in the country to adopt a 750 V DC third rail bottom collection system.
- First Metro to have Underground Metro in South India.
- First Metro in the Global Transit Space to introduce end-to-end ticketing system on WhatsApp chat box.
- With train punctuality of 99.85%, over a network of 96.1 km provides service on a daily basis to nearly 10 lakhs commuters.
- Equipped with State-of-the-art technology offers comprehensive connectivity, convenience, reliability, safety and environmentally friendly transport.
- To transform the city's commute, one of the Asia's tallest multi-level Interchange Metro Station is built at Jayadeva Hospital junction on Bannerghatta Road.
- Implemented energy conservation in its operations, by promoting renewable energy and conserving water through harvesting.

Criss-Crossing the city in all directions and connecting corners of the city, 'Namma Metro' is making a mark for the beginning of an era of seamless commuting.

KARNATAKA'S PUBLIC WORKS DEPARTMENT (KPWD)

Under the leadership of the Hon'ble Chief Minister, **Karnataka's Public Works Department** has significantly accelerated **infrastructure growth over the past 1000 days**. Focused on roads, bridges, and public buildings, PWD emphasizes quality, transparency, and timely delivery. The department strengthens connectivity, improves safety, and supports economic expansion through strategic planning and sustainable development initiatives.

KSHIP-4, supported by the Asian Development Bank, represents a transformative highway upgrade initiative with an **investment of ₹5,736 crore**. Covering **875 km across 11 state highways**, the project enhances connectivity, safety, and trade efficiency. Detailed Project Reports are under preparation, ensuring modern engineering standards and long-term economic benefits statewide.

SHDP Phase-5 aims to upgrade 1,300 km of major roads to strengthen regional mobility. **Stage-1 works worth ₹4,000 crore** have been tendered, with **646 km** already progressing physically. With **₹519.25 crore** spent so far, the project improves logistics efficiency, reduces travel time, and enhances road safety standards.

NH Wing coordinates National Highway widening and bridge integration projects across Karnataka. It facilitates construction of railway over-bridges and underpasses, reducing traffic congestion and enhancing commuter safety. Through interdepartmental collaboration, the wing ensures seamless connectivity between state and national corridors, strengthening freight movement and regional development.

PRAMC oversees monitoring of 39 structurally weak bridges and implements milestone-based tracking systems. It strengthens accountability in financial and physical progress reporting. Additionally, the cell drives asset monetization of vacant government lands and buildings, generating revenue streams while ensuring infrastructure sustainability and strategic reinvestment.

ACHIEVEMENTS OF THE PUBLIC WORKS DEPARTMENT - 1000 DAYS

(Key Statistics and Major Projects)

Under the firm and people-centric leadership of the Hon'ble Chief Minister, the Public Works Department (PWD) has achieved significant progress in the development of road, bridge, and building infrastructure across the State over the past 1000 days. The key statistics and major initiatives are detailed below.

NEWLY IMPLEMENTED PROJECTS / PROGRAMMES

Financial Year 2023-24

- In Kalyana Karnataka region, a 78 km road project from Kalmala Junction near Raichur to the Ballari-Lingsugur Road Circle near Sindhanur is being implemented under the Hybrid Annuity Model at a cost of ₹1,696 crore. Of the total stretch, 50 km has been completed, and the remaining work is in progress.
- Administrative approval has been granted to undertake the construction of a 123 km four- and six-lane road from Devanahalli-Vijayapura-H Cross-Vemagal-Malur up to the Tamil Nadu border in three packages. One project is in progress, Two project is currently under the tendering stage.

Financial Year 2024-25

- Under the SCP scheme, construction of 15 new student hostel buildings has been initiated by the PWD, and the works are currently in progress.
- Under KSHIP-4, Detailed Project Reports are being prepared to upgrade 875 km of 11 State Highways at a cost of ₹5,736 crore with assistance from the Asian Development Bank.
- Under SHDP Phase-5, 1,300 km of major roads are planned for development. In Phase-1, works estimated at ₹4,000 crore have been tendered. So far, 646 km has achieved physical progress, with an expenditure of ₹519.25 crore incurred.
- Construction of six Railway Over/Under Bridges at a total cost of ₹350 crore has been taken up at the following locations: near Kukkarahalli in Mysuru, K.R.S. Road, Shivamogga-Bommanakatte Road, Mallapur in Ron (Gadag District), Channapatna - Byrapatna Road, and Chikkaballapura.

Financial Year 2025-26

- A total of 39 dilapidated bridges across the State have been identified. The Cabinet has approved ₹2,000 crore for bridge works during the current year. This includes reconstruction/repairs of structurally weak bridges, restoration of flood-damaged bridges, and construction of footbridges.
- Detailed Project Reports have been prepared for construction of ring roads at Raichur city (under KKRDB macro funding) and Bailhongal town. DPRs are also being prepared for development of the Wagdari-Ribbonpalli road and road widening works in Maddur town.
- Steps are being taken to identify vacant sites and buildings under the PWD for Asset Monetization to generate revenue for the State exchequer.
- New court buildings at Bengaluru (CMM Court Complex), Chikkamagaluru, and Puttur have been completed at a total estimated cost of ₹85 crore.
- Administrative approval has been granted for construction of five new court buildings at Mangaluru, Bagalkote, Basavakalyan, Koppal, and Virajpet at an estimated cost of ₹171.30 crore.
- More than 2,900 jobs have been created across the State through the recruitment of maintenance workers to strengthen road maintenance and safety.
- Under the CRIF scheme during 2023-24, approval was accorded for 297 works worth ₹1,385 crore covering approximately 1,590 km of State Highways and Major District Roads. So far, about 1,254 km of road development has been completed.
- To facilitate safe crossing of streams and rivulets for residents and school children in unconnected habitations of coastal and Malnad regions, 441 footbridges have been taken up at an estimated cost of ₹74.10 crore. In the past two and a half years, 208 footbridges have been completed, and the remaining works are in various stages of physical progress.
- Under the SCP and TSP schemes, 100 Dr. B.R. Ambedkar student hostel buildings are being constructed to benefit 4,900 boys and 5,100 girls. Of these, 53 hostels have been completed, and the remaining works are progressing (without land-related issues).
- Under the SCP and TSP schemes, buildings for 11 residential schools (each accommodating 250 students - 125 boys and 125 girls) have been taken up. Construction of six residential school buildings has been completed, and the remaining works are nearing completion.
- During the tenure of the present Government (1000 days), alongside the implementation of new initiatives and the continuation of ongoing projects, a total allocation of ₹23,874 crore has been provided from the financial year 2023 up to the end of December 2025. Of this, ₹20,193 crore has been expended as of the end of December 2025. Further, as of the end of November 2025, the Department has achieved an average physical progress of 68.50% and financial progress of 85%.
- Significant advancements have been made in the development of road, bridge, and building infrastructure, with several major projects being successfully implemented. Under the leadership of the Hon'ble Chief Minister, the Public Works Department has laid a strong foundation for Karnataka's long-term and sustainable development.

Institution of Public Health Engineers, India (IPHE) is a premier forum of Public Health & Environmental Engineers of the country. Established in 1972 as a modest society, today IPHE has spread all over the country with headquarters office housed in its own building located in a prestigious area of Salt Lake City, Kolkata. The corporate membership in the grades of Fellow, Member & Associate Member of the Institution is open to Public Health and Environmental Engineers and Academician with at least Bachelor's degree in Engineering or with equivalent qualification.

Organization Membership in a separate category is open to organizations/institutions, who are involved or interested in Public Health Engineering / Environmental Engineering.

Organizations working in the fields of Public Health and Environmental Engineering are eligible to join the Institution as Organizational Members.

The Institution has got a diversified spectrum of activities like organizing public awareness/ sensitization programmes, seminars, symposia, workshops, technical paper meetings and

NOTABLE ACTIVITIES

- Water and Waste Water Treatment
- Sewerage and Drainage
- Solid Waste Management
- Bio-Medical Waste Management
- Environmental Impact Assessment Studies
- Rural & Urban Drinking Water Supply Management
- Engineering Project Formulation & Evaluation
- Control of Pollution & other Environmental Issues
- Hygiene & General Sanitation
- Human Resource Development & Capacity Building
- Research and Development

IPHE PUBLICATIONS

- JIPHE Quarterly Journal since 1972 containing rich articles in the fields of Public Health Engineering/ Environmental Engineering, Science & Technology. Uploaded regularly on www.ipheindia.com and accessible by all corporate and organizational members of the institution free of cost.
- IPHE News containing activities of the institution across the country, important news items in the fields of Public Health / Environmental Engineering, Science & Technology; achievements & news about members, induction of new members etc.

Green Road Drainage System for Smart and Sustainable Cities

This is a zero-energy system that operates using vehicle-induced wind and natural wind.

- World's first, uniquely patented technology
- Installed in Korea, Vietnam, and other countries with ongoing installations currently underway

- Captures road fine dust up to 350 mg/m, with over 50% removal efficiency
- Blocks road debris such as trash, cigarette butts, and leaves
- Blocks sewer odors with 99% efficiency
- 100% improvement in road surface drainage performance

Built on Trust. Cherished for Generations.

Defining Chennai's Skyline for over four decades.

Ceebros curates more than just property; it curates the art of living. For four decades the brand has defined the benchmark for luxury real estate through a rare synthesis of boutique craftsmanship and institutional precision.

From the high-performance corridors of OMR to Chennai's most prestigious urban enclaves, every detail is treated as a masterpiece and every development as a landmark. Experience a legacy built on integrity, where service excellence is the standard and every client is welcomed as family.

SUCCESS STORIES

RCF, Mumbai

Recycling of municipal sewage to industrial use

SOLUTION:

A well-established reclaim system with ZeeWeed™ MBR treating 22 MLD, & RO treating 15 MLD for non-potable usage.

VALUE: Total of 5,475 million liters recycled per annum, enabling provision to 30,000 households near Mumbai since 2019.

MCGM, Mumbai

Municipal Sewage Disposal Projects (MSDP)

SOLUTION:

Transforming 860 million liters/day from waste to resources via ZeeWeed™ MBR to reuse in Worli and nearby areas in Mumbai.

VALUE: Total of 350,000 million liters recycled per annum.

Coromandel International Ltd., Vizag

Seawater Desalination

SOLUTION:

Veolia advances sustainable water management in Vizag with a Build-Own-Operate (BOO) seawater desalination plant. Using technologies like SWRO, it provides a dependable, high-quality water source, ensuring water security for the production facility.

VALUE: The solution ensures business continuity & stable operations by providing a reliable, high-quality water supply.

Reliance Industries Limited, Dahej

Chloro Alkali Industry

SOLUTION:

Delivered world's largest 4,000 MTPD with modernization of caustic soda concentrator via film evaporator technology, optimizing operations with minimal steam consumption and with PLC based automation to streamline processes.

VALUE: Reduced overall carbon footprint by 100,000 tons/year, monthly savings of INR 40-60 lakh & 25-30% OPEX reduction with superior plant operations & incremental production capacity.
